IMAGICA GROUP Inc.
Representative Director, President

Shunjiro Nagase

Thank you very much for your continued support.

I, Shunjiro Nagase, have been appointed Representative Director and President of IMAGICA GROUP Inc. as of April 2024.

The IMAGICA GROUP was founded as a business in film development and printing for showing in 1935, becoming independent from a division of a movie film importer (now Nagase & Co., Ltd.). Since then, we have proactively adapted and expanded our business domain to meet market demand while anticipating the rapid evolution of imaging technology. Today, we provide a comprehensive range of services and products to global markets, from entertainment to industrial fields, with "imaging" at the core.

In 2025, we will celebrate the 90th anniversary of the IMAGICA GROUP's founding. The trust and achievements we have built over the years in imaging-related field are our irreplaceable assets, and we intend to continue to develop them into the future. Additionally, in order to be a group that continues to provide new value to society, we will not be bound by our existing business areas but will actively take on the challenges of new markets, new technologies, and new business models and seek opportunities for growth.

The IMAGICA GROUP will continue to challenge itself to be "a visual communications group that strives to create new value with a sincere spirit and provides the world with surprise and excitement," as stated in our Group Mission. We kindly ask for your continued support.
